

## REMARKS

Please cancel claims 1-32 and add new claims 33-51.

The applicants wish to thank the examiner for providing the paragraph cites of the prior art to assist in reviewing positions expressed by the office action. The applicants were unable to determine how Mintz col. 2, para 18-20 teaches "a locker" and Mintz col. 4, para 63 teaches e-mail/panel management, so respectfully reserve the right to transverse if appropriate. Mintz also does not teach delivery of surveys and responses other than by e-mail so does not technically deliver surveys as a web server would "serve" them to client computers, etc. Nevertheless, to avoid arguments over semantics with the aim at expediting prosecution, claims associated with "serving" surveys, etc. have been hereby canceled. The applicants also wish to respectfully point out that Sonnenfeld uses templates in terms of generic user profiles rather than templates of exemplary surveys, so further reserve the right transverse if appropriate.

All of the claims remaining in the application are now clearly allowable.  
Favorable consideration and a Notice of Allowance are earnestly solicited.

Respectfully submitted,  
Chris Greener et al.
